Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife by eliminating motorized use that can contribute to wildlife harassment and removing the route footprint, which can fragment habitat.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Facilitator(s): Tom Folks **Initial Evaluation Date:** 8/31/2020

Evaluators:
Brian Storm, Archaeologist
Carson Gubler, Rangeland Management Specialist
Lou Pratt, GIS/Transportation Director
Dan Gunn, Outdoor Recreation Planner
Shea Owens, Legal Council
Jason Stewart, GIS Specialist
Ade Nelson, Resource Planner
Lisa Church, Wildlife Biologist
John Reese, Rangeland Management Specialist

TMA: Trail Canyon
Length: 0.24 miles **Width:** Dual Track **Class:** Primitive Roads **Use Level:** Reclaiming
Route Type(s) ☒ Spur
Surface & Maint.
Origin
Jurisdictions: ☒ BLM ☒ Private

Additional Information Abandoned with construction and use of route TC1024; NEPA done. Route designation applies only to those portions of the route located on public lands managed by BLM.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**NO**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities
None

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☐	☐	☒	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☐	☐	☒	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat7: Designation would promote safety of all users of public land by providing a managed transportation asset subject to condition assessments and an appropriate level of routine maintenance.
Rat69: Allowing administrative access to support search and rescue activities would contribute to public safety and enhance protection of identified resource values. (BLM would consider wildlife management strategies and would implement the tactics that best protect public safety and other values at risk.)

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Canyoneering	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Backpacking	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat8: Closing the route would promote of safety of all users of public land by eliminating access to an area with known hazards where mitigation is not feasible.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat107: Per the Settlement, BLM is directed to analyze, within Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat8: Closing the route would promote of safety of all users of public land by eliminating access to an area with known hazards where mitigation is not feasible.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Memo(s): An interdisciplinary team evaluated this route within an RMP-designated Natural Area and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.F.1. (from BLM Manual 6320) in allowing such routes to be "…identified in the transportation inventory as a motorized/mechanized 'primitive route'" but not formally "designated as an Open or Limited primitive road or motorized/mechanized trail." As such, it would remain available for public motorized use in the Natural Area. For this alternative, the route evaluation team also chooses not to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Canyoneering	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Backpacking	☐	☒	☐
Public Use Activities	Equestrian	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Natural Area	☐	☐	☐	☒	1/4 Mile	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat47: By providing a managed route that reduces the inclination for visitors to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat47: By providing a managed route that reduces the inclination for visitors to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Route Type(s) ☒ Spur
Surface & Maint.
Origin
Jurisdictions: ☒ BLM

Additional Information This segment split from 91D, due to location within the Natural Area.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
SUWA	Closed	Close to preserve and maintain the area's wilderness characteristics.

General Evaluation Questions

Does this route: **YES**
- ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?
- ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?
- ☐ provide a principal means of connectivity within a Travel Management Area or sub-region?
- ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?
- ☐ provide an important linkage between Travel Management Areas or planning sub-regions?

Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws? **YES**

Might the continued use of this route potentially impact: **YES**
- ☒ State or Federal special status species or their habitat?
- ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?
- ☒ any special area designations, e.g., National Monuments?
- ☒ any other resources of concern?

Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated? **YES**

Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources? **NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	Natural Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat8: Closing the route would promote of safety of all users of public land by eliminating access to an area with known hazards where mitigation is not feasible.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat107: Per the Settlement, BLM is directed to analyze, within Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Memo(s): An interdisciplinary team evaluated this route within an RMP-designated Natural Area and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.F.1. (from BLM Manual 6320) in allowing such routes to be "…identified in the transportation inventory as a motorized/mechanized 'primitive route'" but not formally "designated as an Open or Limited primitive road or motorized/mechanized trail." As such, it would remain available for public motorized use in the Natural Area. For this alternative, the route evaluation team also chooses not to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	Natural Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Public safety issue	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat8: Closing the route would promote of safety of all users of public land by eliminating access to an area with known hazards where mitigation is not feasible.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat107: Per the Settlement, BLM is directed to analyze, within Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Memo(s): An interdisciplinary team evaluated this route within an RMP-designated Natural Area and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.F.1. (from BLM Manual 6320) in allowing such routes to be "…identified in the transportation inventory as a motorized/mechanized 'primitive route'" but not formally "designated as an Open or Limited primitive road or motorized/mechanized trail." As such, it would remain available for public motorized use in the Natural Area. For this alternative, the route evaluation team also chooses not to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Memo(s): An interdisciplinary team evaluated this route within an RMP-designated Natural Area and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.F.1. (from BLM Manual 6320) in allowing such routes to be "…identified in the transportation inventory as a motorized/mechanized 'primitive route'" but not formally "designated as an Open or Limited primitive road or motorized/mechanized trail." As such, it would remain available for public motorized use in the Natural Area. For this alternative, the route evaluation team also chooses not to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long crucial habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat83: By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive animal species.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Activities				
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long crucial habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat83: By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive animal species.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat83: By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive animal species.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat83: By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive animal species.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Activities				
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long crucial habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Horse	☐	☐	☒
Modes of Transportation	By Foot	☒	☐	☐
Activities				
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Facilitator(s): Tom Folks **Initial Evaluation Date:** 8/31/2020

Modified Date: 1/6/2021

Modified Reason: Public comment regarding location of route being within Natural Area.

Evaluators: **Brian Storm**, Archaeologist; **Jason Stewart**, GIS Specialist; **Carson Gubler**, Rangeland Management Specialist; **Ade Nelson**, Resource Planner; **Lou Pratt**, GIS/Transportation Director; **Lisa Church**, Wildlife Biologist; **Dan Gunn**, Outdoor Recreation Planner; **John Reese**, Rangeland Management Specialist; **Shea Owens**, Legal Council

TMA:	Trail Canyon		
Length: 1.82 miles	**Width:** Dual Track	**Class:** Primitive Route	**Use Level:** Low
Route Type(s)	☒ Spur		
Surface & Maint.	☒ Bladed		
Origin Jurisdictions:	☒ BLM	☒ Private	

Additional Information County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
SUWA	Closed	Do not designate for motorized use. Close to preserve and maintain the area's wilderness characteristics.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Activities				
Public Use Activities	Backpacking	☒	☐	☐
Public Use Activities	Canyoneering	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class I - Preserve existing character	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☐	☒	☐	☐		
Sp. Mgnt. Areas	Natural Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat107: Per the Settlement, BLM is directed to analyze, within Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation, Sign Closed

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Memo(s): An interdisciplinary team evaluated this route within an RMP-designated Natural Area and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.F.1. (from BLM Manual 6320) in allowing such routes to be "…identified in the transportation inventory as a motorized/mechanized 'primitive route'" but not formally "designated as an Open or Limited primitive road or motorized/mechanized trail." As such, it would remain available for public motorized use in the Natural Area. For this alternative, the route evaluation team also chooses not to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Memo(s): An interdisciplinary team evaluated this route within an RMP-designated Natural Area and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.F.1. (from BLM Manual 6320) in allowing such routes to be "…identified in the transportation inventory as a motorized/mechanized 'primitive route'" but not formally "designated as an Open or Limited primitive road or motorized/mechanized trail." As such, it would remain available for public motorized use in the Natural Area. For this alternative, the route evaluation team also chooses not to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Foot	☒	☐	☐

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

***Note:** Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Water Resources	Riparian	☐	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife).

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
LIMITED

Comprehensive Designation Type:
Limited to Transportation Type.

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by non-motorized modes (including bicycles, horses, hiking, Class I E-bike), year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Closed** - The public may not use motorized vehicles on this route, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat5: By eliminating public motorized access on this route, potential impacts to documented resources associated with motorized use would be reduced.
Rat101: By limiting this route to Class I E-bikes and other non-motorized modes of transportation, traffic volume in the area would be reduced, which minimizes potential impacts to documented resources.
Rat57: By restricting motorized access to the minimum necessary for administrative purposes, potential impacts on T&E species and their habitats would be reduced.
Rat33: Potential conflicts between recreation users would be minimized by eliminating the motorized uses on this route and managing it for non-motorized uses.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat59: By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Condition of WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Modified 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Backpacking	☒	☐	☐
Public Use Activities	Canyoneering	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Rock Climbing	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long crucial habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☐	☒	☐	☐		
Water Resources	Perennial stream	☐	☐	☒	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Riparian	☐	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat59: Providing a critical route connection would minimize the inclination for visitors to travel off-trail, which would reduce the potential for travel-related impacts on T&E species and their habitats.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Water Resources	Perennial stream	☐	☐	☒	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Well	☐	☐	☐	☒	100 meters	
Water Resources	Other	☒	☐	☐	☐		
Water Resources	Pond	☐	☐	☐	☒	100 meters	
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☒	☐		
Resource Issues	Water quality issue	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to irrigation and trailhead facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	2WD vehicle	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	Snowmobile	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Canyoneering	☒	☐	☐
Public Use Activities	Christmas Tree Cutting - Personal Use	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☐	☐	☒	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Resource Issues	Trespass	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Resource Issues	Noxious weeds	☐	☐	☒	☐		
Resource Issues	Water quality issue	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Closing the route would reduce the potential for conflicts between off-road vehicle users and dispersed, non-motorized/non-mechanized forms of recreation. Closing this route would reduce overall impact of vehicle use and route footprint in the area. Closing this route would minimize potential impacts to wildlife by eliminating motorized use that can contribute to wildlife harassment and removing the route footprint, which can fragment habitat. By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive animal species. Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics. By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides the best access to trailhead facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties. This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use. Conditional use of this primitive route would minimize impacts to wilderness character by providing reasonable, allowable access along a pre-existing route to a trailhead.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Allowing continued use of this existing route, which provides the best access to trailhead facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties. This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment. Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use. Conditional use of this primitive route would minimize impacts to wilderness character by providing reasonable, allowable access along a pre-existing route to a trailhead.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☒	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	
Range Facilities	Spring Development	☐	☐	☒	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Activities				
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Pond	☐	☒	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☐	☒	1/4 mile	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements and rain gauge, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements and rain gauge, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, gate, corral, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, gate, corral, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☒	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Activities				
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Pond	☐	☒	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Activities				
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Activities				
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Activities				
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long crucial habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	FS Adjacent Ranger District	☐	☒	☐	
Jurisdictional Access	Private Lands	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Range Facilities	Spring Development	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☐	☐	☒	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Perennial stream	☐	☐	☒	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	Erosive soil - Moderate potential	☐	☐	☒	☐		
Resource Issues	Noxious weeds	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Facilitator(s): Tom Folks **Initial Evaluation Date:** 9/2/2020

Evaluators:
Brian Storm, Archaeologist
Carson Gubler, Rangeland Management Specialist
Shea Owens, Legal Council
Lou Pratt, GIS/Transportation Director
Jason Stewart, GIS Specialist
Dan Gunn, Outdoor Recreation Planner
Ade Nelson, Resource Planner
Lisa Church, Wildlife Biologist

TMA: Trail Canyon
Length: 0.38 miles **Width:** Dual Track **Class:** Primitive Roads **Use Level:** Low
Route Type(s) ☒ Spur
Surface & Maint. ☒ Bladed
Origin
Jurisdictions: ☒ BLM ☒ Private

Additional Information Route designation applies only to those portions of the route located on public lands managed by BLM.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: **YES**

- ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?
- ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?
- ☒ provide a principal means of connectivity within a Travel Management Area or sub-region?
- ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?
- ☐ provide an important linkage between Travel Management Areas or planning sub-regions?

Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws? **YES**

Might the continued use of this route potentially impact: **YES**

- ☒ State or Federal special status species or their habitat?
- ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?
- ☒ any special area designations, e.g., National Monuments?
- ☒ any other resources of concern?

Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated? **YES**

Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources? **NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	2WD vehicle	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	Snowmobile	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☐	☐	☒	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State and private property and its use may or may not minimize potential impacts to documented resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat50: Due to the traffic volume and speeds anticipated on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Rat12: This route provides access to State and private property and its use may or may not minimize potential impacts to documented resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat50: Due to the traffic volume and speeds anticipated on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Other	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Grasslands	☐	☐	☒	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat77: Allowing continued use of this existing route, which provides the best access to an inactive gravel pit would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat77: Allowing continued use of this existing route, which provides the best access to an inactive gravel pit would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☐	☒	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Grasslands	☐	☐	☒	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat47: By providing a well-managed route that reduces the inclination for visitors to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat47: By providing a well-managed route that reduces the inclination for visitors to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

motorized modes, year-round.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	Erosive soil - Moderate potential	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	Erosive soil - Moderate potential	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Coal	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
Cultural Resources	Historic road (i.e. GLO roads)	☒	☐	☐	☐		
Cultural Resources	Historic site	☐	☒	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☐	☒	1/4 mile	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☐	☐	
Lease Facilities	ROW - Water Pipeline	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long crucial habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
Cultural Resources	Historic road (i.e. GLO roads)	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat59: Providing a critical route connection would minimize the inclination for visitors to travel off-trail, which would reduce the potential for travel-related impacts on T&E species and their habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat59: Providing a critical route connection would minimize the inclination for visitors to travel off-trail, which would reduce the potential for travel-related impacts on T&E species and their habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat59: Providing a critical route connection would minimize the inclination for visitors to travel off-trail, which would reduce the potential for travel-related impacts on T&E species and their habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities
None

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat83: By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive animal species.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat83: By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive animal species.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State and private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State and private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State and private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to a resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to a resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

None.		

General Evaluation Questions

Does this route:	**YES**
☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?	
☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?	
☐ provide a principal means of connectivity within a Travel Management Area or sub-region?	
☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?	
☐ provide an important linkage between Travel Management Areas or planning sub-regions?	
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact:	**YES**
☐ State or Federal special status species or their habitat?	
☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?	
☒ any special area designations, e.g., National Monuments?	
☒ any other resources of concern?	
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☒	☐	
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Other	☐	☐	☒	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	Erosive soil - Moderate potential	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to State property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to State property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides access to State property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State land and gravel pit and its use may or may not minimize potential impacts to documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State land and gravel pit and its use may or may not minimize potential impacts to documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State land and gravel pit and its use may or may not minimize potential impacts to documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	Erosive soil - Moderate potential	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes wit a current ROW that have already undergone NEPA analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, ROW holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Jurisdictional Access	SITLA	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	Erosive soil - Moderate potential	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	Erosive soil - Moderate potential	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to a resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides access to State property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to a resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides access to State property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to a resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides access to State property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☐	☐	☒	
Jurisdictional Access	SITLA	☐	☐	☒	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	Erosive soil - Moderate potential	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Grasslands	☐	☐	☒	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to powerline, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation; Litter / Dumping
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Barriers; Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Barriers; Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	ROW - Telephone / Comm Site	☒	☐	☐	
Lease Facilities	ROW - Powerline	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Public safety issue	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☐	☐	☒	☐		
Biome	Grasslands	☐	☐	☒	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Barriers as needed
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☐	☒	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	ROW - Powerline	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Pipeline	☐	☐	☒	
Range Facilities	Tank/Trough	☐	☐	☒	
Range Facilities	Cattleguard	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☐	☐	☒	☐		
Biome	Grasslands	☐	☐	☒	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☐	☐	☒	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, pipeline and resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat25: Closing this route would reduce overall impact of illegal dumping and OHV use on soils and vegetation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat25: Closing this route would reduce overall impact of illegal dumping and OHV use on soils and vegetation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized access from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized access from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized access from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Grasslands	☐	☐	☒	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Grasslands	☐	☐	☒	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats. Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use. Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* *• 43 CFR § 8342.1 (c)* *• 43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pipeline, tank, trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pipeline, tank, trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pipeline, tank, trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☐	☒	1/4 mile	
Resource Issues	Other	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife by eliminating motorized use that can contribute to wildlife harassment and removing the route footprint, which can fragment habitat.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife by eliminating motorized use that can contribute to wildlife harassment and removing the route footprint, which can fragment habitat.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: **YES**

- ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?
- ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?
- ☐ provide a principal means of connectivity within a Travel Management Area or sub-region?
- ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?
- ☐ provide an important linkage between Travel Management Areas or planning sub-regions?

Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws? **YES**

Might the continued use of this route potentially impact: **YES**

- ☐ State or Federal special status species or their habitat?
- ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?
- ☒ any special area designations, e.g., National Monuments?
- ☒ any other resources of concern?

Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated? **YES**

Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources? **NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☐	☒	1/4 mile	
Resource Issues	Other	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife by eliminating motorized use that can contribute to wildlife harassment and removing the route footprint, which can fragment habitat.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized access from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: The following users are currently authorized users: (ranch allottee, Commercial permits, private land owner) may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat12: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to range management, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Initiate ROW/easement negotiations
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Jurisdictional Access	SITLA	☒	☐	☐	
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Jurisdictional Access	FS Adjacent Ranger District	☐	☐	☒	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	2WD vehicle	☒	☐	☐

OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: **YES**

- ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?
- ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?
- ☒ provide a principal means of connectivity within a Travel Management Area or sub-region?
- ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?
- ☐ provide an important linkage between Travel Management Areas or planning sub-regions?

Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws? **YES**

Might the continued use of this route potentially impact: **YES**

- ☐ State or Federal special status species or their habitat?
- ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?
- ☒ any special area designations, e.g., National Monuments?
- ☒ any other resources of concern?

Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated? **YES**

Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources? **YES**

Route 99 may meet the various needs of this route while minimizing impacts or cumulative effects.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Jurisdictional Access	SITLA	☐	☐	☒	
Jurisdictional Access	State Lands or Park	☐	☐	☒	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☐	☒	1/4 mile	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat28: Closing the route would reduce the potential for conflicts between OHV use and residents of adjacent populated areas.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat28: Closing the route would reduce the potential for conflicts between OHV use and residents of adjacent populated areas.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides access to State and private property and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

motorized modes, year-round.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity for managed OHV route, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important OHV recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity for managed OHV route, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important OHV recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity for managed OHV route, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important OHV recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☒ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat95: Allowing continued use of this existing route, which provides the best access to multiple authorized facilities and public uses, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Memo(s): Subject to Kane County authority and limitations.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat95: Allowing continued use of this existing route, which provides the best access to multiple authorized facilities and public uses, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Memo(s): Subject to Kane County authority and limitations.

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campground - Developed	☒	☐	☐	
Recreation Facilities	Campground - Group	☒	☐	☐	
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Day Use Area	☒	☐	☐	
Recreation Facilities	Interpretive Site	☒	☐	☐	
Recreation Facilities	Parking Area - Developed	☒	☐	☐	
Recreation Facilities	Parking Area - Undeveloped	☒	☐	☐	
Recreation Facilities	Recreation Fee Area	☒	☐	☒	
Recreation Facilities	Staging Area	☒	☐	☐	
Recreation Facilities	Trailhead	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	2WD vehicle	☒	☐	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☐	☒	☐
Modes of Transportation	ATV	☐	☒	☐
Modes of Transportation	Motorcycle	☒	☐	☐
Modes of Transportation	Bicycle	☐	☒	☐

Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Backpacking	☐	☒	☐
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Birding	☐	☒	☐
Public Use Activities	Canyoneering	☒	☐	☐

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat95: Allowing continued use of this existing route, which provides the best access to multiple authorized facilities and public uses, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat95: Allowing continued use of this existing route, which provides the best access to multiple authorized facilities and public uses, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Memo(s): Subject to Kane County authority and limitations.

Facilitator(s): Tom Folks
Les Weeks

Initial Evaluation Date: 11/19/2019

Evaluators:

Dan Gunn, Outdoor Recreation Planner
Ade Nelson, Resource Planner
Jason Stewart, GIS Specialist
James Holland, Geologist

Clay Stewart, Assistant Field Manager
Whit Bunting, Field Manager

John Reese, Rangeland Management Specialist

Lisa Church, Wildlife Biologist
Lou Pratt, GIS/Transportation Director
Brandon Johnson, Realty Specialist
Carson Gubler, Rangeland Management Specialist
Brian Storm, Archaeologist
Levi LeFevre, Rangeland Management Specialist

TMA:	Trail Canyon		
Length: 0.54 miles	**Width:** Dual Track	**Class:** Primitive Roads	**Use Level:** Low
Route Type(s)	☒ Spur		
Surface & Maint.	☒ Bladed	☒ Infreq. Maintained	☒By: BLM
Origin	☒ Ranching	☒ Constructed	
Jurisdictions:	☒ BLM		

Additional Information This route is proposed as an addition to the 2008 inventory because it was either missed or provides a purpose and need that has been recognized since the 2008 plan.
Proposed New Route - Post-2008 route to consider for addition to route network.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Developed Wildlife Water	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		

***Note:** Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated
This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
LIMITED

Comprehensive Designation Type:
Limited to Administrative Users, Authorized Users.

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: The following users are currently authorized users: (ranch allottee) may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Closed** - The public may not use motorized vehicles on this route, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat13: By eliminating public motorized use, the remaining traffic volume associated with authorized facility operations and maintenance would be minimal, which would reduce the potential for impacts to documented resources and facilities.
Rat11: By limiting motorized access on this route, traffic volume in the area would be reduced, which minimizes the potential for vandalism of authorized structures.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat37: Limiting motorized access on this route would minimize potential for impacts to wildlife habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat76: The route may be used to access a water resources site.
Rat10: Allowing continued use of this existing route, which provides the best access to a water trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat76: The route may be used to access a water resources site.
Rat10: Allowing continued use of this existing route, which provides the best access to a water trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☐ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Developed Wildlife Water	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		

***Note:** Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated
This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
LIMITED

Comprehensive Designation Type:
Limited to Administrative Users, Authorized Users.

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: The following users are currently authorized users: (ranch allottee) may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Closed** - The public may not use motorized vehicles on this route, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat13: By eliminating public motorized use, the remaining traffic volume associated with authorized facility operations and maintenance would be minimal, which would reduce the potential for impacts to documented resources and facilities.
Rat11: By limiting motorized access on this route, traffic volume in the area would be reduced, which minimizes the potential for vandalism of authorized structures.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat37: Limiting motorized access on this route would minimize potential for impacts to wildlife habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat76: The route may be used to access a water resources site.
Rat10: Allowing continued use of this existing route, which provides the best access to a water trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☐	☒	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒

Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Rehabilitate route proliferation
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat100: Proposing inclusion of this route would provide targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat55: Allowing use of this existing route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Withdrawal Public Water Reserve	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☐	☒	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat18: Access to mining claims would be handled at the time of notice.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	ROW - Water Pipeline	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☐	☐	☒	☐		
Water Resources	Well	☐	☒	☐	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

How Designation Addresses Criteria Above:
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential conflicts between ROW and public use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: Potential conflict w/ROW and public use
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☐	☐	☒	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Well	☐	☒	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential conflicts between ROW and public use.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: Potential conflict w/ROW and public use
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat6: Allowing use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for network connectivity in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat6: Allowing use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for network connectivity in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

TMA:	Trail Canyon		
Length: 0.08 miles	**Width:** Dual Track	**Class:** Primitive Roads	**Use Level:** Medium
Route Type(s)	☒ Connector		
Surface & Maint.	☒ Bladed	☒ Infreq. Maintained	
Origin			
Jurisdictions:	☒ BLM		

Additional Information County Class D. This route is proposed as an addition to the 2008 inventory because it was either missed or provides a purpose and need that has been recognized since the 2008 plan. Proposed New Route - Post-2008 route to consider for addition to route network.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☐	☒
Activities				
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat18: Access to mining claims would be handled at the time of notice.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon; Sign Closed

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat18: Access to mining claims would be handled at the time of notice.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon; Sign Closed

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing use of this route would minimize potential additional route proliferation by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for route connectivity in this area. Allowing use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat55: Allowing use of this route would minimize proliferation impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat29: Allowing use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to unique geologic feature without causing greater than minimal adverse effects on documented resources.
Rat96: Designation would protect resources by concentrating recreation use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat55: Allowing use of this route would minimize proliferation impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat29: Allowing use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to unique geologic feature without causing greater than minimal adverse effects on documented resources.
Rat96: Designation would protect resources by concentrating recreation use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat55: Allowing use of this route would minimize proliferation impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat29: Allowing use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to unique geologic feature without causing greater than minimal adverse effects on documented resources.
Rat96: Designation would protect resources by concentrating recreation use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Spring Development	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Cultural / Historical Viewing	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Non-Vegetated	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☐	☐		
Water Resources	Spring	☐	☒	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☐	☒	1/4 mile	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Undesignated

This route was not addressed in previous planning or NEPA processes.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat25: Closing this route would reduce overall impact of OHV use on soils and vegetation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Sign Closed

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to spring source and livestock/wildlife water trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat97: Designation would have minimal affect on xero-riparian resources because the route is located in a drainage that is regularly scoured by flood events, periodically eliminating all traces of previous travel.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to spring source and livestock/wildlife water trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat97: Designation would have minimal affect on xero-riparian resources because the route is located in a drainage that is regularly scoured by flood events, periodically eliminating all traces of previous travel.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Interpretive Site	☒	☐	☐	
Recreation Facilities	Parking Area - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Canyoneering	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☒	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		
Resource Issues	Invasive vegetation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to cultural resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to livestock grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary linked access to State and/or private property and its use may or may not minimize potential impacts to documented resources. The ROW associated with this route is the determining document with regard to a designation. The Route Evaluation Process carries forward the ROW decision and the data is used for cumulative effects analysis during the NEPA portion of the development of a Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Evaluate the need to reconfigure
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to cultural resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to livestock grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary linked access to State and/or private property and its use may or may not minimize potential impacts to documented resources. The ROW associated with this route is the determining document with regard to a designation. The Route Evaluation Process carries forward the ROW decision and the data is used for cumulative effects analysis during the NEPA portion of the development of a Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Evaluate the need to reconfigure
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides primary linked access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to livestock grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access. The ROW associated with this route is the determining document with regard to a designation. The Route Evaluation Process carries forward the ROW decision and the data is used for cumulative effects analysis during the NEPA portion of the development of a Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☒	☐	☐	
Range Facilities	Spring Development	☐	☐	☒	
Range Facilities	Tank/Trough	☐	☐	☒	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☐	☒	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☒	☐		
Resource Issues	Invasive vegetation	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☐	☒	
Agency Facilities	Monitoring Site	☐	☐	☒	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☐	☐	☒	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat12: This route provides linked access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat12: This route provides linked access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat12: This route provides linked access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Cultural Resources	Historic road (i.e. GLO roads)	☐	☐	☐	☒	1/4 mile	
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☐	☐	☒	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route:	**YES**
☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?	
☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?	
☐ provide a principal means of connectivity within a Travel Management Area or sub-region?	
☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?	
☐ provide an important linkage between Travel Management Areas or planning sub-regions?	
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact:	**YES**
☒ State or Federal special status species or their habitat?	
☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?	
☒ any special area designations, e.g., National Monuments?	
☒ any other resources of concern?	
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☐	☒
Modes of Transportation	By Foot	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	2WD vehicle	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

TMA:	Trail Canyon	**Route Name:**	RMP0060 - Red Knoll Road
Length: 1.5 miles	**Width:** Graded Track	**Class:** Roads	**Use Level:** Medium
Route Type(s)	☒ Connector		
Surface & Maint.	☒ Bladed	☒ Reg. Maintained	☒By: Kane County
Origin	☒ Utility		
Jurisdictions:	☒ BLM	☒ State Land	

Additional Information County Class B. Route designation applies only to those portions of the route located on public lands managed by BLM.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☒	☐	☐	
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	ROW - Telephone / Comm Site	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☐	☐	☒	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☐	☒
Modes of Transportation	2WD vehicle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: Changes in levels of use
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: Changes in levels of use
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☒	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	ROW - Powerline	☐	☐	☒	
Lease Facilities	ROW - Telephone / Comm Site	☐	☒	☐	
Lease Facilities	Utility Corridor	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Range Facilities	Spring Development	☐	☒	☐	
Range Facilities	Gate	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☐	☒	☐

Activities				
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☒	☐	☐	
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Agency Facilities	Developed Wildlife Water	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Withdrawal Public Water Reserve	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	ROW - Other	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Range Facilities	Spring Development	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Water Resources	Spring	☐	☒	☒	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to livestock grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	ROW - Water Pipeline	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☐	☒	☐	
Lease Facilities	R.S. 2477 claim	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☐	☒
Activities				
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☐	☐	☒	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☒	☐		
Water Resources	Well	☐	☒	☐	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential conflicts between ROW and public use.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: Potential conflict w/ROW and public use
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat17: The ROW for a portion of this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat17: The ROW for a portion of this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to livestock grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Developed Wildlife Water	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒

Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Dunes	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to livestock grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to livestock grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat10: Allowing continued use of this existing route, which provides the best access to livestock grazing facilities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat95: Allowing continued use of this existing route, which provides the best access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat95: Allowing continued use of this existing route, which provides the best access to a vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☐	☒
Modes of Transportation	By Foot	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to an exceptional vista location without causing greater than minimal adverse effects on documented resources. The ROW associated with this route is the determining document with regard to a designation. The Route Evaluation Process carries forward the ROW decision and the data is used for cumulative effects analysis during the NEPA portion of the development of a Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Other	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Public safety issue	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides access to a wood cutting area and allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Resource Issues	Dumping / Littering	☐	☒	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to a wood cutting area, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Range Facilities	Active Allotment	☐	☒	☐	
Mineral Facilities	Mining claim	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to wood cutting, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to wood cutting, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to wood cutting, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to wood cutting, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to wood cutting, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)
