None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☐	☐	
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	ROW - Telephone / Comm Site	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☒	☐	☐	
Range Facilities	Corral	☐	☒	☐	
Range Facilities	Exclosure Fence	☐	☒	☐	
Range Facilities	Livestock Trailing	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Parking Area - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	2WD vehicle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Canyoneering	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Pond	☐	☒	☐	☐		
Water Resources	Riparian	☐	☒	☐	☐		
Water Resources	Spring	☐	☒	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat75: The route may be used to access certified water right recorded with the State of Utah.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat75: The route may be used to access certified water right recorded with the State of Utah.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route minimizes the potential for route proliferation on public land.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Site barrier with natural materials

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Closing this route minimizes the potential for route proliferation on public land.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Site barrier with natural materials

Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Limited

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1:** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
LIMITED

Comprehensive Designation Type:
Limited to Administrative Users, Authorized Users.

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: The following users are currently authorized users: (ranch allottee) may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Closed** - The public may not use motorized vehicles on this route, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to a salting location, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to salt lick, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Close portion beyond salt lick; Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to a salt lick location, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Woodcutting	☐	☒	☐

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Site barrier with natural materials

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Closing this route minimizes the potential for route proliferation on public land. Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area. Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* *• 43 CFR § 8342.1 (c)* *• 43 CFR § 8342.1 (d)* **Closure Method:** Site barrier with natural materials

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to salt lick, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat52: Closing this route could reduce the potential for impacts to sites of tribal significance by eliminating motorized uses from the immediate area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may “damage” BLM-inventoried wilderness characteristics.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence and gate, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat61: Continued use of this primitive route would minimize impacts to lands with wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Close portion beyond campsite; Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence and gate, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat61: Continued use of this primitive route would minimize impacts to lands with wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Close portion beyond campsite; Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	ROW - Powerline	☒	☐	☐	
Lease Facilities	ROW - Telephone / Comm Site	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐

Activities				
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat12: This route provides primary access to private property and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☐	☐	☒
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☐	☒

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☐	☐	☒	☐		
Biome	Ponderosa Pine	☐	☒	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1 foot	
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Vandalism	☐	☒	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat63: Allowing continued use of this route, with additional agency management, would not contribute to impairment of wilderness characteristics due to the fact that the route is within a cherrystem, outside of lands found to have wilderness character
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat61: Continued use of this wilderness inventory road would minimize impacts to wilderness characteristics (LWC or WSA) by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Potential Management Actions:

Maintenance: Repair barricades at WSA boundary

Mitigation: Signing - Regulatory

Monitoring: Route proliferation

Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Water Resources	Ephemeral stream	☒	☐	☐	☐		
Water Resources	Spring	☐	☐	☐	☒	200 meters	
Water Resources	Riparian	☐	☐	☐	☒	100 meters	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence and spring development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence and spring development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☐	☐		
Water Resources	Riparian	☐	☐	☐	☒	100 meters	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
LIMITED

Comprehensive Designation Type:
Limited to Administrative Users, Authorized Users.

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: The following users are currently authorized users: (ranch allottee) may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Closed** - The public may not use motorized vehicles on this route, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat38: By limiting motorized access on this route, traffic volume in the area would be reduced, minimizing the potential for harassment of wildlife and for impacts to wildlife habitats.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, vegetative damage and impacts to cultural resources.
Rat4: By limiting access on this route to only administrative and/or permitted use, the potential for impacts to documented resources would be reduced, due to traffic volume, low speeds and no public motorized use.
Rat89: Limiting motorized use to administrative access only would contribute to the success of future habitat restoration projects.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
LIMITED

Comprehensive Designation Type:
Limited to Administrative Users, Authorized Users.

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: The following users are currently authorized users: (ranch allottee) may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Closed** - The public may not use motorized vehicles on this route, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat38: By limiting motorized access on this route, traffic volume in the area would be reduced, minimizing the potential for harassment of wildlife and for impacts to wildlife habitats.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, vegetative damage and impacts to cultural resources.
Rat4: By limiting access on this route to only administrative and/or permitted use, the potential for impacts to documented resources would be reduced, due to traffic volume, low speeds and no public motorized use.
Rat89: Limiting motorized use to administrative access only would contribute to the success of future habitat restoration projects.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to spring development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Public Use Activities	Hunting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Spring	☐	☒	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Resource Issues	Dumping / Littering	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat95: Allowing continued use of this existing route, which provides the best access to spring developments, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to a corral and fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Cultural / Historical Viewing	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, harassment of wildlife, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat27: Closing the route would reduce the potential for conflicts between off-road vehicle users and dispersed, non-motorized/non-mechanized forms of recreation.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	ROW - Telephone / Comm Site	☐	☐	☒	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Other	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides primary access to fiber optic line and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides primary access to fiber optic line and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat108: Per the Settlement, this alternative includes measures limiting, to the greatest extent possible (consistent with applicable laws, regulations, or existing right-of-way authorizations), the ORV use on this route to enhance BLM-inventoried wilderness characteristics.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat108: Per the Settlement, this alternative includes measures limiting, to the greatest extent possible (consistent with applicable laws, regulations, or existing right-of-way authorizations), the ORV use on this route to enhance BLM-inventoried wilderness characteristics.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat61: Continued use of this primitive route could minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting “motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA.” While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not “designate primitive road or motorized/mechanized trails”….”or classify them as assets.” For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a “non-motorized and non-mechanized trail” or 2) to “Close the route to motorized/mechanized use.” This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a ‘primitive route’.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat80: Closing this route minimizes the potential for route proliferation on public land. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion. Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* • *43 CFR § 8342.1 (c)* • *43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, harassment of wildlife and/or vegetative damage.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a managed route that reduces the inclination for visitors to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	BLM Adjacent FO DO or SO	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☒	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, harassment of wildlife and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing important recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing important recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing important recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* • *43 CFR § 8342.1 (c)* • *43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to a trough, tank and pipeline, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to a trough, tank and pipeline, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	ROW - Telephone / Comm Site	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fencing, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fencing, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Agency Facilities	Monitoring Site	☐	☐	☒	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the expected traffic volume and speeds on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and/or vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the expected traffic volume and speeds on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and/or vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the expected traffic volume and speeds on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and/or vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat34: Due to the expected traffic volume and speeds on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities on slickrock without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to monitoring site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; Relocate all or part of route to avoid sensitive resources, Terminate 200 meters of route end
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities on slickrock without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to monitoring site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across this area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across this area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across this area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties. Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across this area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across this area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: Route proliferation; WSA, LWC
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1 foot	
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Vandalism	☐	☒	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat61: Continued use of this primitive route would minimize impacts to nearby wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Potential Management Actions:

Maintenance: Repair barricades at WSA boundary

Mitigation: Signing - Regulatory

Monitoring: Route proliferation

Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat61: Continued use of this primitive route would minimize impacts to nearby wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: Route proliferation; WSA, LWC; Litter / Dumping
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Pasture Fence	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Special Status Plants	Other habitat	☐	☐	☐	☒	300 meters	
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, harassment of wildlife, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, harassment of wildlife, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Facilitator(s): Tom Folks
Les Weeks

Initial Evaluation Date: 7/21/2020

Evaluators:
Jason Stewart, GIS Specialist
Carson Gubler, Rangeland Management Specialist
Lou Pratt, GIS/Transportation Director
Ade Nelson, Resource Planner
Shea Owens, Legal Council
Brandon Johnson, Realty Specialist
James Holland, Geologist
Dan Gunn, Outdoor Recreation Planner
Clay Stewart, Assistant Field Manager
Brian Storm, Archaeologist
Ron Torgerson, Deputy Director

TMA: Trail Canyon
Length: 2.24 miles **Width:** Graded Track **Class:** Primitive Route **Use Level:** Medium
Route Type(s) ☒ Spur
Surface & Maint. ☒ Bladed

Additional Information County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM. Documented way 1979 603 inventory.
Do Not Designate - Route is in WSA

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☐	☒	
Jurisdictional Access	State Lands or Park	☐	☐	☒	
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Area Closed to Firewood Collection	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Utility/ROW Exclusion Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Cultural / Historical Viewing	☒	☐	☐
Public Use Activities	Canyoneering	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wild and Scenic River Corridor	☐	☒	☐	☐		
Water Resources	Spring	☐	☐	☐	☒	200 meters	
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat12: This route relies on access from State land and its use may or may not minimize potential impacts to documented resources.
Rat59: By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E habitat would be reduced.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat61: Continued use of this primitive route would minimize impacts to W&SR values and wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Monitoring: WSA condition; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

	Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route relies on access from State land and its use may or may not minimize potential impacts to documented resources.
Rat59: By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E habitat would be reduced.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat61: Continued use of this primitive route would minimize impacts to W&SR values and wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Monitoring: WSA condition; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Riparian	☐	☐	☒	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Spring	☐	☐	☐	☒	200 meters	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to a spring development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Parking Area - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Canyoneering	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Cultural / Historical Viewing	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	BLM Adjacent FO DO or SO	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Spring Development	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to spring development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, harassment of wildlife, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to spring development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, harassment of wildlife, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

TMA:	Trail Canyon		
Length: 12.63 miles	**Width:** Graded Track	**Class:** Wild Inv Road	**Use Level:** High
Route Type(s)	☒ Principal Feeder		
Surface & Maint.	☒ Bladed	☒ Reg. Maintained	☒By: BLM
Origin			
Jurisdictions:	☒ BLM	☒ State Land	

Additional Information County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM. This is the southern portion of route 20 that is not within the WSA, in that this portion of route 20 is cherry-stemmed from the WSA. Other portions of route 20 will be addressed as separate segments, and numbered differently.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☒	☐	☐	
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Agency Facilities	Airport / Airstrip	☐	☐	☒	
Agency Facilities	Cabin	☐	☐	☒	
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☐	☐	☒	
Range Facilities	Corral	☐	☐	☒	
Range Facilities	Exclosure Fence	☐	☐	☒	
Range Facilities	Livestock Trailing	☒	☐	☐	
Range Facilities	Tank/Trough	☐	☐	☒	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. Existing management practices address the identified issues.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. Existing management practices address the identified issues.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. Existing management practices address the identified issues.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat95: Allowing continued use of this existing route, which provides the best access to woodcutting, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important recreational camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat95: Allowing continued use of this existing route, which provides the best access to woodcutting, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important recreational camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat95: Allowing continued use of this existing route, which provides the best access to woodcutting, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important recreational camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Commercial Rec Permit	☐	☒	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Hill Climbing	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides alternate access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access for recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☐	☐	☒	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Camping	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation; Litter / Dumping
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access for recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access for recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence and corral, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat63: Allowing continued use of this route, with additional agency management, would not contribute to impairment of wilderness characteristics due to the fact that the route is within a cherrystem, outside of lands found to have wilderness character
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Maintenance: Repair barricades at WSA boundary
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**NO**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Exclusion Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities
None

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☒	1/4 Mile	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

***Note:** Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☒	1/4 Mile	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
LIMITED W/ MANAGEMENT

Comprehensive Designation Type:
Limited to Administrative Users, Authorized Users.

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: The following users are currently authorized users: (ranch allottee) may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Closed** - The public may not use motorized vehicles on this route, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.
Rat13: By eliminating public motorized use, the remaining traffic volume associated with authorized facility operations and maintenance would be minimal, which would reduce the potential for impacts to documented resources and facilities.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Condition of WC; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

	Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	ROW - Water Pipeline	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Parking Area - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	2WD vehicle	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Swimming	☐	☒	☐
Public Use Activities	Trail Running	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Non-TES raptor nest	☐	☐	☐	☒	1/2 mile	
Managed Species	Fisheries (native)	☐	☐	☐	☒	100 feet	
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Perennial stream	☐	☐	☐	☒	100 meters	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Cleanup of waste; Signing - Regulatory
Monitoring: Litter / Dumping; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Cleanup of waste; Signing - Regulatory
Monitoring: Litter / Dumping; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Cleanup of waste; Signing - Regulatory
Monitoring: Litter / Dumping; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Utility/ROW Exclusion Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Range Facilities	Exclosure Fence	☐	☐	☒	
Range Facilities	Livestock Trailing	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Parking Area - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	2WD vehicle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Canyoneering	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Cultural / Historical Viewing	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Backpacking	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Fisheries (native)	☐	☐	☒	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☒	1/4 Mile	
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wild and Scenic River Corridor	☐	☒	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Perennial stream	☒	☐	☒	☐		
Water Resources	Riparian	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☒	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		
Resource Issues	Invasive vegetation	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics (LWC or Natural Area) by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Maintenance: Signing - Directional
Mitigation: Signing - Regulatory
Monitoring: Route proliferation; Condition of WC
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

	Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics (LWC or Natural Area) by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Facilitator(s): Tom Folks
Les Weeks

Initial Evaluation Date: 6/5/2020

Evaluators:
Brandon Johnson, Realty Specialist
James Holland, Geologist
Lisa Church, Wildlife Biologist
Lou Pratt, GIS/Transportation Director
Clay Stewart, Assistant Field Manager
Jason Stewart, GIS Specialist
Carson Gubler, Rangeland Management Specialist
Dan Gunn, Outdoor Recreation Planner
Shea Owens, Legal Council

TMA:	Trail Canyon		
Length: 1.09 miles	**Width:** Graded Track	**Class:** Roads	**Use Level:** High
Route Type(s)	☒ Principal Feeder		
Surface & Maint.	☒ Bladed	☒ Reg. Maintained	☒By: Multiple entities
Origin			
Jurisdictions:	☒ BLM	☒ Private	☒ State Land

Additional Information County Class B. Route designation applies only to those portions of the route located on public lands managed by BLM. This is the northern portion of route 20 that is not within the WSA. Other portions of route 20 will be addressed as separate segments, and numbered differently.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Riparian/Wetlands	☐	☒	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☐	☒	☐	☐		
Managed Species	Non-TES raptor nest	☐	☒	☐	☐		
Managed Species	Fisheries (native)	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☒	☐	☒	1/4 Mile	
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Spring	☐	☒	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☒	☐	☐	☐		
Resource Issues	Noxious weeds	☐	☐	☒	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

motorized modes, year-round.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. Existing management practices address the identified issues.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and private land and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access. Existing management practices address the identified issues.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and private land and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☒	☐	☐	
Jurisdictional Access	State Lands or Park	☐	☐	☒	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☐	☒	☐	
Range Facilities	Livestock Trailing	☒	☐	☐	
Range Facilities	Tank/Trough	☐	☒	☐	
Range Facilities	Pasture Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Spring Development	☐	☐	☒	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Water Resources	Riparian	☐	☐	☒	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Spring	☐	☐	☐	☒	200 meters	
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to allotment and pasture fences, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to allotment and pasture fences, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.
Rat95: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.
Rat95: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Foot	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

***Note:** Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pipeline, gate and fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Parking Area - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Canyoneering	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐

Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides primary access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat12: This route relies on access from private property and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Riparian	☐	☐	☒	☐		
Water Resources	Spring	☐	☐	☐	☒	200 meters	
Water Resources	Pond	☐	☐	☐	☒	100 meters	
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Monitoring: WSA, LWC
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Monitoring: WSA, LWC
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Water Resources	Ephemeral stream	☒	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may “damage” BLM-inventoried wilderness characteristics.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Signing - Regulatory, WSA
Monitoring: Route proliferation; LWC, WSA condition
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to private property and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to private property and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route: **YES**

- ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?
- ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?
- ☐ provide a principal means of connectivity within a Travel Management Area or sub-region?
- ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?
- ☐ provide an important linkage between Travel Management Areas or planning sub-regions?

Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws? **YES**

Might the continued use of this route potentially impact: **YES**

- ☒ State or Federal special status species or their habitat?
- ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?
- ☒ any special area designations, e.g., National Monuments?
- ☒ any other resources of concern?

Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated? **YES**

Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources? **NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat12: This route provides alternate access to private property in the event of primary route washout and its use may or may not minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Close southern portion; Signing - Regulatory
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Area Closed to Firewood Collection	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Utility/ROW Exclusion Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 1 - Very low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Monitoring: WSA; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

	Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." Facilitator(s): Tom Folks
Les Weeks

Initial Evaluation Date: 7/21/2020

Evaluators:
Jason Stewart, GIS Specialist
Carson Gubler, Rangeland Management Specialist
Lou Pratt, GIS/Transportation Director
Ade Nelson, Resource Planner
Shea Owens, Legal Council
Brandon Johnson, Realty Specialist
James Holland, Geologist
Dan Gunn, Outdoor Recreation Planner
Clay Stewart, Assistant Field Manager
Brian Storm, Archaeologist
Ron Torgerson, Deputy Director

TMA: Trail Canyon
Length: 0.44 miles **Width:** Graded Track **Class:** Primitive Route **Use Level:** High
Route Type(s) ☒ Loop
Surface & Maint. ☒ Bladed

Additional Information County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.
Do Not Designate - Route is in WSA

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Facilitator(s): Tom Folks
Les Weeks

Initial Evaluation Date: 7/21/2020

Evaluators:
Jason Stewart, GIS Specialist
Carson Gubler, Rangeland Management Specialist
Lou Pratt, GIS/Transportation Director
Ade Nelson, Resource Planner
Shea Owens, Legal Council
Brandon Johnson, Realty Specialist
James Holland, Geologist
Dan Gunn, Outdoor Recreation Planner
Clay Stewart, Assistant Field Manager
Brian Storm, Archaeologist
Ron Torgerson, Deputy Director

TMA:	Trail Canyon		
Length: 1.78 miles	**Width:** Graded Track	**Class:** Wild Inv Road	**Use Level:** Medium
Route Type(s)	☒ Connector	☒ Spur	
Surface & Maint.	☒ Bladed		
Origin			
Jurisdictions:	☒ BLM		

Additional Information County Class D. Includes 2008 route 29A.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route:	**YES**
☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?	
☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?	
☐ provide a principal means of connectivity within a Travel Management Area or sub-region?	
☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?	
☐ provide an important linkage between Travel Management Areas or planning sub-regions?	
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact:	**YES**
☒ State or Federal special status species or their habitat?	
☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?	
☒ any special area designations, e.g., National Monuments?	
☒ any other resources of concern?	
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐

Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Cultural / Historical Viewing	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Special Status Plants	Other habitat	☐	☐	☐	☒	300 meters	
VRM	VRM Class III - Partially retain existing char.	☒					
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to developed recreation site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; Evaluate alternate parking lot locations; Signing - Interpretive, Relocate existing kiosks out of wash
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; Evaluate alternate parking lot locations; Signing - Interpretive, Relocate existing kiosks out of wash
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☐	☒	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	
Range Facilities	Salt Lick	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Other	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to corral and fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to corral and fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☒	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat80: Closing this route minimizes the potential for route proliferation on public land. Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion. Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* *• 43 CFR § 8342.1 (c)* *• 43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Interpretive Site	☒	☐	☐	
Recreation Facilities	Trailhead	☒	☐	☐	
Recreation Facilities	Parking Area - Developed	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Other	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☒	☒	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☒	☐	☐		
Misc. Resources	PFYC Class 4 - High	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to developed recreation site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; Evaluate alternate parking lot locations; Signing - Interpretive, Relocate existing kiosks out of wash
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to developed recreation site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Evaluate alternate parking lot locations; Signing - Interpretive, Relocate existing kiosks out of wash; Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to developed recreation site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Maintenance: Signing - Directional
Mitigation: Signing - Regulatory; Evaluate alternate parking lot locations; Signing - Interpretive, Relocate existing kiosks out of wash; Relocate all or part of route to avoid sensitive resources
Monitoring: Route proliferation; Track site
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to water development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to water development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☐	☒	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☒	☐	
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat10: Allowing continued use of this existing route, which provides the best access to a fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat10: Allowing continued use of this existing route, which provides the best access to a fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☒	☐	
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Agency Facilities	Resource Treatment	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. TMA: Trail Canyon
Length: 0.55 miles **Width:** Dual Track **Class:** Primitive Roads **Use Level:** Low
Route Type(s) ☒ Spur
Surface & Maint.
Origin
Jurisdictions: ☒ BLM ☒ State Land

Additional Information Route designation applies only to those portions of the route located on public lands managed by BLM.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☐	☒	
Jurisdictional Access	State Lands or Park	☐	☐	☒	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides linked access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Tribal Lands or Facilities	☐	☒	☐	
Jurisdictional Access	SITLA	☐	☐	☒	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☒	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to corral, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to corral, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☒	☐	☐	
Range Facilities	Pipeline	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☒	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Other	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pipeline, troughs, tanks, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: Relocation of the existing route to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pipeline, troughs, tanks, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: Relocation of the existing route to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pipeline, troughs, tanks, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: Relocation of the existing route to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to monitoring site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat34: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to monitoring site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat34: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to monitoring site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat34: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

TMA: Trail Canyon
Length: 0.34 miles **Width:** Dual Track **Class:** Primitive Roads **Use Level:** Low
Route Type(s) ☒ Connector
Surface & Maint.
Origin
Jurisdictions: ☒ BLM ☒ Tribal

Additional Information Route designation applies only to those portions of the route located on public lands managed by BLM.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Tribal Lands or Facilities	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		
Resource Issues	Public safety issue	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat97: Designation would have minimal affect on xero-riparian resources because the route is located in a drainage that is regularly scoured by flood events, periodically eliminating all traces of previous travel. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat8: Closing the route would promote of safety of all users of public land by eliminating access to an area with known hazards where mitigation is not feasible. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* *• 43 CFR § 8342.1 (c)* *• 43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to WSA resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat97: Designation would have minimal affect on xero-riparian resources because the route is located in a drainage that is regularly scoured by flood events, periodically eliminating all traces of previous travel.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeting recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Maintenance: Signing - Directional; Formalize campsites
Mitigation: Flash flood safety signing
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat52: Closing this route could reduce the potential for impacts to areas of tribal interest by eliminating motorized uses from the immediate area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat95: Allowing continued use of this existing route, which provides the best access to a scenic vista, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat47: Providing a managed route reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat47: Providing a managed route reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☒	☐	☒	1/4 Mile	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Area Closed to Firewood Collection	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat12: This route provides access to State Park and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat64: Conditional use of this WSA primitive route would minimize impacts to wilderness character by providing reasonable, allowable access along a pre-existing route to historically used trailheads and campgrounds. Additionally, the 603 wilderness inventory determined that the route did not sufficiently degrade naturalness to the point of excluding the route from the inventory area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Potential Management Actions:

Mitigation: Signing - Regulatory

Monitoring: WSA; Route proliferation

Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Area Closed to Firewood Collection	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Wildlife Watching	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat64: Conditional use of this WSA primitive route would minimize impacts to wilderness character by providing reasonable, allowable access along a pre-existing route to historically used trailheads and campgrounds. Additionally, the 603 wilderness inventory determined that the route did not sufficiently degrade naturalness to the point of excluding the route from the inventory area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: WSA; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

	Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat64: Conditional use of this WSA primitive route would minimize impacts to wilderness character by providing reasonable, allowable access along a pre-existing route to historically used trailheads and campgrounds. Additionally, the 603 wilderness inventory determined that the route did not sufficiently degrade naturalness to the point of excluding the route from the inventory area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: WSA; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

	Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1/4 Mile	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat52: Closing this route could reduce the potential for impacts to sites of tribal significance by eliminating motorized uses from the immediate area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; WSA boundary barriers
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; WSA boundary barriers
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Origin			
Jurisdictions:	☒ BLM	☒ Tribal	

Additional Information County Class D. Route designation applies only to those portions of the route located on public lands managed by BLM.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Tribal Lands or Facilities	☐	☐	☒	
Jurisdictional Access	SITLA	☐	☐	☒	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Corral	☐	☒	☐	
Range Facilities	Pipeline	☐	☒	☐	
Range Facilities	Tank/Trough	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☒	☐	☒	1/4 Mile	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
LIMITED W/ MANAGEMENT

Comprehensive Designation Type:
Limited to Administrative Users, Authorized Users.

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: The following users are currently authorized users: (Native Americans engaged in traditional activities) may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Closed** - The public may not use motorized vehicles on this route, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat4: By limiting access on this route to only administrative and/or permitted use, the potential for impacts to documented resources would be reduced, due to traffic volume, low speeds and no public motorized use.
Rat5: By eliminating public motorized access on this route, potential impacts to documented resources associated with motorized use would be reduced.
Rat65: Allowing limited use of this route would not adversely affect wilderness values because the route surfacing is durable and the route is located in an environmentally preferable location.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; WSA boundary barriers
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to corral, tank, trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; WSA boundary barriers
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat10: Allowing continued use of this existing route, which provides the best access to corral, tank, trough, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; WSA boundary barriers
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides linked access to State Park and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to camping and scenic opportunities without causing greater than minimal adverse effects on documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides linked access to State Park and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to camping and scenic opportunities without causing greater than minimal adverse effects on documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☐	☐	☒	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to pasture fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Commercial Rec Permit	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pasture Fence	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☐	☐	☒	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☐	☐	☒	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pasture Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☒
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to State Park and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat55: Continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides primary access to State Park and its use may or may not minimize potential impacts to documented resources.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat55: Continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to corral, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to corral, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat10: Allowing continued use of this existing route, which provides the best access to corral, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Facilitator(s): Tom Folks
Les Weeks

Initial Evaluation Date: 6/3/2020

Evaluators:
James Holland, Geologist
Jason Stewart, GIS Specialist
Lou Pratt, GIS/Transportation Director
Mark Boshell, Legal Council
Carson Gubler, Rangeland Management Specialist
Dan Gunn, Outdoor Recreation Planner
Ade Nelson, Resource Planner
Brandon Johnson, Realty Specialist
John Reese, Rangeland Management Specialist
Lisa Church, Wildlife Biologist

TMA: Trail Canyon
Length: 1.42 miles **Width:** Dual Track **Class:** Primitive Roads **Use Level:** Low
Route Type(s) ☒ Spur
Surface & Maint. ☒ Bladed
Origin ☒ Mining
Jurisdictions: ☒ BLM

Additional Information County Class D.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☐ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Modified 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Hill Climbing	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.
