	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area. Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint. Rat41: Closing this route would enhance wildlife movement by reducing fragmentation. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* *• 43 CFR § 8342.1 (c)* *• 43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to scenic recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to scenic recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat18: Access to mining claims would be handled at the time of notice.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat18: Access to mining claims would be handled at the time of notice.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to a fence and gate, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to a fence and gate, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat10: Allowing continued use of this existing route, which provides the best access to a fence and gate, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat18: Access to mining claims would be handled at the time of notice.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat18: Access to mining claims would be handled at the time of notice.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint. Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint. Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife. Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion. Rat18: Access to mining claims would be handled at the time of notice. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* *• 43 CFR § 8342.1 (c)* *• 43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒

Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☒	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat18: Access to mining claims would be handled at the time of notice.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Obscure with local materials to visual horizon

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat18: Access to mining claims would be handled at the time of notice.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to State property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat47: By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides primary access to State property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat47: By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☒	☐	
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat18: Access to mining claims would be handled at the time of notice.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to State property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat47: By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides primary access to State property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat47: By providing a well-designed and constructed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important scenic opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☐	☒	
Jurisdictional Access	State Lands or Park	☐	☐	☒	
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	
Range Facilities	Pipeline	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to developed spring, trough and tanks, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route links from State property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

***Note:** Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☒	☐	☐	
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Withdrawal Public Water Reserve	☐	☒	☐	
Range Facilities	Active Allotment	☐	☒	☐	
Range Facilities	Pipeline	☐	☒	☐	
Range Facilities	Spring Development	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Evaluate options
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to developed spring, trough and tanks, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Evaluate options
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to developed spring, trough and tanks, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

***Note:** Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing targeted recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Evaluate options
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☒	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Horse	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to scenic opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to scenic opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☒	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☒	☐	☐		
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☐	☒	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat95: Allowing continued use of this existing route, which provides the best access for recreation opportunities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat95: Allowing continued use of this existing route, which provides the best access for recreation opportunities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Developed Wildlife Water	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Tank/Trough	☐	☒	☐	
Range Facilities	Pipeline	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒

Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☐	☒	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat95: Allowing continued use of this existing route, which provides the best access to water development, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access for allotment management, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat95: Allowing continued use of this existing route, which provides the best access for recreation opportunities, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to exceptional recreational opportunities for camping and OHV recreation in Ponderosa pine without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat95: Allowing continued use of this existing route, which provides access to mineral materials site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat95: Allowing continued use of this existing route, which provides access to mineral materials site, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒

Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.
Rat70: Route provides access to unique and/or exceptional recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat26: Continued use of this route would minimize conflicts among various users of public land by reducing user concentrations and the potential for impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat26: Continued use of this route would minimize conflicts among various users of public land by reducing user concentrations and the potential for impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (d)

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: **YES**

- ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?
- ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?
- ☐ provide a principal means of connectivity within a Travel Management Area or sub-region?
- ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?
- ☐ provide an important linkage between Travel Management Areas or planning sub-regions?

Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws? **YES**

Might the continued use of this route potentially impact: **YES**

- ☒ State or Federal special status species or their habitat?
- ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?
- ☒ any special area designations, e.g., National Monuments?
- ☒ any other resources of concern?

Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated? **YES**

Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources? **YES**

Route 66G may meet the various needs of this route while minimizing impacts or cumulative effects.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☐	☒	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (c) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat2: The low traffic volume and low speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (d)

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat26: Continued use of this route would minimize conflicts among various users of public land by reducing user concentrations and the potential for impacts to documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Camping	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat26: Continued use of this route would minimize conflicts among various users of public land by providing access to other public land areas beyond the urban interface, reducing user concentrations and the potential for impacts to documented resources within the urban interface.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; Barriers at end of route
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; Barriers at end of route
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to unique and/or exceptional camping and scenic recreational opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route:	**YES**
☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?	
☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?	
☐ provide a principal means of connectivity within a Travel Management Area or sub-region?	
☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?	
☐ provide an important linkage between Travel Management Areas or planning sub-regions?	
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact:	**YES**
☒ State or Federal special status species or their habitat?	
☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?	
☒ any special area designations, e.g., National Monuments?	
☒ any other resources of concern?	
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☐	☐	☒	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat80: Closing this route minimizes the potential for route proliferation on public land.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Natural barriers (proliferation); Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☐	☒	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities				
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Special Status Plants	Welsh's milkweed (Asclepias welshii) habitat	☐	☐	☐	☒	300 meters	
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	SRMA - Special Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Allotment Fence	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions related route proliferation, would minimize potential impacts to documented resources.
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory; Evaluate barrier options
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat70: Route provides access to camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover, minimizing the potential for soil erosion.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat56: Due to the low traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Gate	☒	☐	☐	
Mineral Facilities	Mining claim	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☐	☒
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat77: Allowing continued use of this existing route, which provides the best access to active mining claims for maintenance and exploration, would minimize the potential for new disturbances to documented resources from cross-country travel or the need for construction of new routes to provide similar access.
Rat48: By providing access on this less sensitive route, the potential for impacts to adjacent wildlife habitat would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Agency Facilities	Monitoring Site	☒	☐	☒	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Parking Area - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Backpacking	☐	☒	☐
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Birding	☐	☒	☐
Public Use Activities	Canyoneering	☒	☐	☐
Public Use Activities	Cultural / Historical Viewing	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Biome	Sagebrush Steppe	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☐	☐	☐	☒	1/4 mile	
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1 foot	
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Potential Management Actions:

Mitigation: Signing - Regulatory

Monitoring: Route proliferation; Litter / Dumping; WSA

Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation; Litter / Dumping; WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Backpacking	☐	☒	☐
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Birding	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: WSA; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐

Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Backpacking	☐	☒	☐
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Birding	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Canyoneering	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1 foot	
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1 foot	
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1 foot	
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Agency Facilities	Monitoring Site	☐	☐	☒	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Backpacking	☐	☒	☐
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Birding	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for impacts to endangered or threatened habitats by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**NO**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities
None

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Natural rehabilitation

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Jurisdictional Access	SITLA	☐	☒	☐	
Agency Facilities	Monitoring Site	☒	☐	☒	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Modified 4 Wheel Drive	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Backpacking	☐	☒	☐
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Birding	☐	☒	☐
Public Use Activities	Canyoneering	☒	☐	☐
Public Use Activities	Cultural / Historical Viewing	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Rock Crawling	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☒	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	SITLA	☐	☐	☒	
Jurisdictional Access	State Lands or Park	☐	☐	☒	
Agency Facilities	Area Closed to Firewood Collection	☒	☐	☐	
Lease Facilities	Utility/ROW Exclusion Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities
None

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Evaluators:
Brian Storm, Archaeologist
Clay Stewart, Assistant Field Manager
James Holland, Geologist
Ade Nelson, Resource Planner
Brandon Johnson, Realty Specialist
Jason Stewart, GIS Specialist
Carson Gubler, Rangeland Management Specialist
Lou Pratt, GIS/Transportation Director

TMA:	Trail Canyon	**Route Name:**	Poverty Road
Length: 3.74 miles	**Width:** Dual Track	**Class:** Primitive Route	**Use Level:** High
Route Type(s)	☒ Spur		
Surface & Maint.	☒ Bladed		

Additional Information County Class D. This is the WSA interior portion of route 70. The non-WSA portion of route 70 will be addressed a separate segment, and numbered differently. Route documented 1979 603 inventory route. Route designation applies only to those portions of the route located on public lands managed by BLM.
Do Not Designate - Route is in WSA

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Jurisdictional Access	SITLA	☒	☐	☐	
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Area Closed to Firewood Collection	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Lease Facilities	Utility/ROW Exclusion Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Pond/Dam/Reservoir	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Fisheries (native)	☐	☐	☒	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wild and Scenic River Corridor	☐	☒	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Water Resources	Pond	☐	☐	☐	☒	100 meters	
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs or Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat45: Closing the route would reduce the potential for impacts to MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat59: By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Potential Management Actions:

Mitigation: Signing - Regulatory

Monitoring: Route proliferation; Condition of WC

Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat59: By providing a critical trail connection that would minimize the inclination to travel off-trail, potential impacts on T&E species and their habitats would be reduced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Consider barrier placements; Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Consider barrier placements; Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Exclusion Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Coal	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hiking	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Cultural Resources	Historic road (i.e. GLO roads)	☐	☒	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Mineral materials sales site	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation; Litter / Dumping; Site expansion
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides linked access to private property and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat12: This route provides linked access to private property and its use may or may not minimize potential impacts to documented resources.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Hunting	☒	☐	☒

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Mineral Facilities	Coal	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Vehicle Exploring	☐	☐	☒
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hiking	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Cultural Resources	Historic road (i.e. GLO roads)	☐	☒	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Resource Issues	Other	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat68: By closing the route, the potential for impacts to adjacent wilderness characteristics would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*

Closure Method: Obscure with local materials to visual horizon

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.

Facilitator(s): Tom Folks **Initial Evaluation Date:** 9/1/2020

Evaluators:
Brian Storm, Archaeologist
Carson Gubler, Rangeland Management Specialist
Ade Nelson, Resource Planner
Shea Owens, Legal Council
Jason Stewart, GIS Specialist
Dan Gunn, Outdoor Recreation Planner
Lou Pratt, GIS/Transportation Director

TMA: Trail Canyon
Length: 0.49 miles **Width:** Multi Lane **Class:** Primitive Route **Use Level:** Low
Route Type(s) ☒ Spur
Surface & Maint. ☒ Paved ☒ Bladed

Additional Information Route documented in 2008 RMP as primitive route. Portion of historic section of Highway 9; not currently part of Highway 9.
Do Not Designate - Route is in WSA

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Area Closed to Firewood Collection	☒	☐	☐	
Lease Facilities	Utility/ROW Exclusion Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	By Foot	☒	☐	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	2WD vehicle	☒	☐	☐
Activities				
Public Use Activities	Antler Shed Hunting	☒	☐	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Hiking	☒	☐	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Cultural Resources	Historic road (i.e. GLO roads)	☒	☐	☐	☐		
VRM	VRM Class I - Preserve existing character	☒					
Sp. Mgnt. Areas	WSA - Wilderness Study Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 2 - Low	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat107: Per the Settlement, BLM is directed to analyze, within WSAs, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.
Rat45: Closing the route would reduce the potential for impacts to adjacent MSO habitats by eliminating motorized use and removing the route footprint.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Sign Closed; Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation; Condition of WC
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

	Memo(s): An interdisciplinary team evaluated this route within a WSA and concluded that its presence within the area supports the management emphasis of this alterative and meets the intent of BLM Manual 1626, Sec. 6.5.E.1. (from BLM Manual 6330) in permitting "motorized and mechanized use to continue along existing routes identified in the wilderness inventory conducted in support of sections 603 and 202 of FLPMA." While these routes may continue to be used as stated, Sec. 6.5.E.1. also states that BLM will not "designate primitive road or motorized/mechanized trails"…."or classify them as assets." For this alternative, the route evaluation team will likewise not choose, to 1) designate this route as a "non-motorized and non-mechanized trail" or 2) to "Close the route to motorized/mechanized use." This route alternative will therefore not be part of the current travel management decision package but will be displayed on maps only as a 'primitive route'.

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat50: Due to the typical traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation; Condition of WC
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Canyoneering	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐

Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☐	☒	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Copyright © 2021 by ARS, Inc. All rights reserved. Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*

Closure Method: Obscure with local materials to visual horizon

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics (LWC or Natural Area) by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Signing - Regulatory; Consider barrier placements
Monitoring: Route proliferation; WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination for visitors to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized access from the immediate area.
Rat80: Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized uses (reducing the potential for harassment of wildlife) and removing the route footprint (reducing habitat fragmentation.)
Rat67: By closing the route, the potential for future impacts to documented wilderness character and impairment of wilderness suitability (for lands where suitability has been determined) would be minimized while wilderness characteristics of naturalness and opportunities for solitude would be enhanced.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized access from the immediate area.
Rat80: Closing this route minimizes the potential for route proliferation on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the inclination for visitors to create new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☐	☒

Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
VRM	VRM Class III - Partially retain existing char.	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat10: Allowing continued use of this existing route, which provides the best access to tank, trough, pond, corral and fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides primary access to State land and its use may or may not minimize potential impacts to documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Grasslands	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☐	☐	☒	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Grasslands	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☐	☐	☒	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☐	☐	☒	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities
None

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Sagebrush Steppe	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Mixed Conifer	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to resource treatment, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Grasslands	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
None				

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Tank/Trough	☒	☐	☐	
Range Facilities	Water Haul Site	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Hunting	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Ponderosa Pine	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to tank, trough and water haul site], would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to tank, trough and water haul site], would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Copyright © 2021 by ARS, Inc. All rights reserved. Sp. Mgnt. Areas	WSA - Wilderness Study Area	☐	☐	☐	☒	1 foot	
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: WSA; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: WSA; Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Vista	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to pond, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Monitoring: WSA
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption, wildlife harassment and/or vegetative damage.
Rat10: Allowing continued use of this existing route, which provides the best access to ponds, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.
Rat113: Per IM No. UT 2012-066, all routes with an acknowledged or documented purpose and need should be proposed for an open designation under at least one alternative. This includes all Class D Roads recognized by the State of Utah and submitted by local counties.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Ponderosa Pine	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion. Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* *• 43 CFR § 8342.1 (c)* *• 43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☐	☒	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐

Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat110: Per the Settlement, BLM is directed to consider at least one proposed alternative route network that would not designate for ORV use any route where BLM has determined that such use may "damage" BLM-inventoried wilderness characteristics.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat40: Closing this route would minimize potential impacts to wildlife habitats by eliminating motorized use and removing the route footprint.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat109: For purposes of minimizing damage to public lands with BLM-inventoried wilderness characteristics in the evaluation of this route, BLM considered the potential for damage to wilderness characteristics, including naturalness, outstanding opportunities for solitude, and outstanding opportunities for primitive and unconfined recreation, for each alternative route network.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat61: Continued use of this primitive route would minimize impacts to wilderness characteristics by providing reasonable access to these lands on a pre-existing route, reducing the potential for new disturbances from cross-country use.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

General Evaluation Questions

Does this route:	**YES**
☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency?	
☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility?	
☐ provide a principal means of connectivity within a Travel Management Area or sub-region?	
☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance?	
☐ provide an important linkage between Travel Management Areas or planning sub-regions?	
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact:	**YES**
☒ State or Federal special status species or their habitat?	
☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments?	
☒ any special area designations, e.g., National Monuments?	
☒ any other resources of concern?	
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Natural Area	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat10: Allowing continued use of this existing route, which provides the best access to fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☐	☐	☒	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Sp. Mgnt. Areas	Natural Area	☒	☐	☐	☒	1/4 Mile	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.
Rat107: Per the Settlement, BLM is directed to analyze, within Natural Areas, at least one alternative route network that would enhance BLM-inventoried wilderness characteristics by designating the routes or the relevant portions thereof as closed to ORV use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)

Closure Method: Obscure with local materials to visual horizon

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.
• 43 CFR § 8342.1 (d) Areas and trails shall not be located in officially designated wilderness areas or primitive areas. Areas and trails shall be located in natural areas only if the authorized officer determines that off-road vehicle use in such locations will not adversely affect their natural, esthetic, scenic, or other values for which such areas are established.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint.
Rat84: Because this route is reclaimed or currently reclaiming, officially closing the route will contribute to minimizing potential impacts to documented resources by eliminating motorized use.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Sightseeing	☐	☒	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☐	☐	☒	☐		
Biome	Grasslands	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Desert bighorn sheep crucial year-long habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☒	☐	☒	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Public safety issue	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Grasslands	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Consider realigning NW to tie to 2008 route 74B
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Consider realigning NW to tie to 2008 route 74B
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* • *43 CFR § 8342.1 (c)* • *43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Alternative C	
	Comprehensive Designation: CLOSED This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area. **OHV Public: Designation per 43 CFR § 8342.1: Closed** **Specific Designation Criteria Addressed and Relevant to Route Issues:** • 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability. • 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats. **How Designation Addresses Criteria Above:** Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route. Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion. Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area. Rat39: Closing this route would enhance wildlife habitat by eliminating motorized use and removing the route footprint. **Designation Criteria Addressed but Not Relevant to Route Issues:** *(no known conflicts among users or no known resource concerns to minimize for)* *• 43 CFR § 8342.1 (c)* *• 43 CFR § 8342.1 (d)* **Closure Method:** Natural rehabilitation

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat96: Designation would protect resources by concentrating equestrian, bicycle, and hiking use on an established route with fewer resource issues.
Rat10: Allowing continued use of this existing route, which provides the best access to allotment fence, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Canyoneering	☐	☒	☐
Public Use Activities	Christmas Tree Cutting - Personal Use	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Shooting / Archery	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Grasslands	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

James Holland, Geologist

TMA: Trail Canyon
Length: 0.03 miles **Width:** Dual Track **Class:** Wild Inv Road **Use Level:** Medium
Route Type(s) ☒ Connector
Surface & Maint. ☒ Bladed
Origin
Jurisdictions: ☒ BLM ☒ State Land

Additional Information Route designation applies only to those portions of the route located on public lands managed by BLM.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	State Lands or Park	☐	☒	☐	
Agency Facilities	Resource Treatment	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Bicycling / Mountain Biking	☐	☒	☐
Public Use Activities	Christmas Tree Cutting - Personal Use	☐	☒	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☐	☒	☐
Public Use Activities	Photography	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Shooting / Archery	☐	☒	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☐	☒	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Grasslands	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	Lands w/ Wilderness Character	☐	☐	☐	☒	1 foot	
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat96: Designation would protect resources by concentrating motorized use on an established route with fewer resource issues.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat12: This route provides alternate access to State land and its use may or may not minimize potential impacts to documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Route proliferation	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Signing - Regulatory
Monitoring: Route proliferation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat6: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hiking	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Shooting / Archery	☐	☒	☐
Public Use Activities	Vehicle Exploring	☐	☒	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important woodcutting without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	ROW - Road	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Activities				
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Public safety issue	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW. The ROW associated with this route is the determining document with regard to a designation. The Route Evaluation Process carries forward the ROW decision and the data is used for cumulative effects analysis during the NEPA portion of the development of a Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW. The ROW associated with this route is the determining document with regard to a designation. The Route Evaluation Process carries forward the ROW decision and the data is used for cumulative effects analysis during the NEPA portion of the development of a Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat8: Management of the route is outside BLM's jurisdiction. UDOT manages transportation within this ROW. The ROW associated with this route is the determining document with regard to a designation. The Route Evaluation Process carries forward the ROW decision and the data is used for cumulative effects analysis during the NEPA portion of the development of a Travel Management Plan.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hiking	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Shooting / Archery	☐	☒	☐
Public Use Activities	Vehicle Exploring	☐	☒	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important woodcutting without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important woodcutting without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hiking	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Shooting / Archery	☐	☒	☐
Public Use Activities	Vehicle Exploring	☐	☒	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important woodcutting without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important woodcutting without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Modes of Transportation	Bicycle	☐	☒	☐
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Camping	☐	☒	☐
Public Use Activities	Equestrian	☐	☐	☒
Public Use Activities	Hiking	☐	☐	☒
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Shooting / Archery	☐	☒	☐
Public Use Activities	Vehicle Exploring	☐	☒	☐
Public Use Activities	Wildlife Watching	☐	☒	☐
Public Use Activities	Woodcutting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Dumping / Littering	☐	☒	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative C

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat70: Route provides access to important woodcutting without causing greater than minimal adverse effects on documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides alternate access to private property and its use may or may not minimize potential impacts to documented resources.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.
Rat55: Allowing continued use of this route would minimize potential impacts to documented resources by concentrating motorized use (rather than dispersing it) on an alignment capable of accommodating the route's anticipated traffic volume.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Mule deer crucial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat51: Closing this route could minimize the potential for impacts to cultural sites by eliminating motorized uses from the immediate area.
Rat35: Closing this route would contribute to retaining or restoring vegetation and soil cover by eliminating motorized use, thereby minimizing the potential for greater soil erosion.
Rat41: Closing this route would enhance wildlife movement by reducing fragmentation of habitats.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.
Rat42: Closing this route would eliminate motorized use, minimizing the potential for harassment of wildlife by such use.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Fence or barrier to natural barrier

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Relocate all or part of route to avoid sensitive resources, Close route beyond, approx. 150 yards.
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat44: Due to the low traffic volume and low speeds expected, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat56: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for causing soil erosion, habitat disruption and vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Citizen Comments and Proposals

Author	Designation	Comment or Proposal
None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☒ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Copyright © 2021 by ARS, Inc. All rights reserved. Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	FS Adjacent Ranger District	☒	☐	☐	
Jurisdictional Access	Private Lands	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Agency Facilities	Recreation Site	☒	☐	☐	
Agency Facilities	Resource Treatment	☐	☐	☒	
Lease Facilities	ROW - Road	☒	☐	☐	
Lease Facilities	Commercial Rec Permit	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	R.S. 2477 claim	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	
Range Facilities	Cattleguard	☒	☐	☐	
Range Facilities	Corral	☐	☐	☒	
Range Facilities	Pond/Dam/Reservoir	☐	☐	☒	
Range Facilities	Spring Development	☐	☐	☒	
Range Facilities	Pasture Fence	☒	☐	☐	
Range Facilities	Tank/Trough	☐	☐	☒	
Mineral Facilities	Coal	☒	☐	☐	
Mineral Facilities	AML site	☐	☐	☒	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat76: The route may be used to access a water resources monitoring site.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat1: This route is important for network connectivity, serving commercial and recreation users in this area. Allowing continued use of this route would minimize potential impacts to documented resources by providing a common access into or across the area on a pre-existing route, reducing the potential for new disturbances from cross-country use or the need for construction of new routes to provide similar access.
Rat10: Allowing continued use of this existing route, which provides the best access to range improvements, would minimize the potential for new disturbances to documented resources from cross-country use or the need for construction of new routes to provide similar access.
Rat76: The route may be used to access a water resources monitoring site.
Rat17: The ROW for this route is the determining document with regard to a route designation. The REP carries forward the ROW decision and the data is used for cumulative effects analysis in the NEPA process for the Travel Management Plan.
Rat112: Per IM No. UT 2012-066, routes maintained under agreements with the BLM, routes with current rights-of-way that have already undergone National Environmental Policy Act (NEPA) analysis, or routes classified and maintained as official Class B roads by the State of Utah do not need to be considered for closure under any alternative. However, The fact that a route does not need to be considered for closure under a travel management plan alternative does not prevent the BLM from further evaluating any route in a more detailed manner and working with permittees, rights-of-way holders, counties, and other stakeholders as needed to develop potential solutions to minimize any known resource impacts or user conflicts in accordance with applicable laws and regulations.
Rat47: By providing a well-managed route that reduces the inclination to travel off-trail, the potential for damage to wildlife habitats would be minimized.
Rat70: Route provides access to important recreational activity opportunities without causing greater than minimal adverse effects on documented resources.
Rat50: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for soil erosion, habitat disruption, wildlife harassment, vegetative damage and impacts to cultural resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. None.		

General Evaluation Questions

Does this route: ☐ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☐ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☒	☐	☐	
Jurisdictional Access	State Lands or Park	☒	☐	☐	
Jurisdictional Access	SITLA	☒	☐	☐	
Agency Facilities	Monitoring Site	☒	☐	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long crucial habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		
Misc. Resources	PFYC Class 3 - Moderate	☒	☐	☐	☐		
Resource Issues	Trespass	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat40: Closing this route would minimize potential impacts to wildlife by eliminating motorized use that can contribute to wildlife harassment and removing the route footprint, which can fragment habitat.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat25: Closing this route would reduce overall impact of illegal dumping on soils and vegetation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat12: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat59: Providing a critical route connection would minimize the inclination for visitors to travel off-trail, which would reduce the potential for travel-related impacts on T&E species and their habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Initiate ROW/easement access negotiation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to State and/or private property and its use may or may not minimize potential impacts to documented resources.
Rat59: Providing a critical route connection would minimize the inclination for visitors to travel off-trail, which would reduce the potential for travel-related impacts on T&E species and their habitats.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat40: Closing this route would minimize potential impacts to wildlife by eliminating motorized use that can contribute to wildlife harassment and removing the route footprint, which can fragment habitat.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat80: Closing this route minimizes the potential for unauthorized developments on public land.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Jurisdictional Access	Private Lands	☐	☒	☐	
Lease Facilities	Timber/Woodland Product/Seed Sales Area	☒	☐	☐	
Lease Facilities	Utility/ROW Avoidance Area	☒	☐	☐	
Lease Facilities	ROW - Water Pipeline	☒	☐	☐	
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Antler Shed Hunting	☐	☒	☐
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Migratory bird habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class IV - Major Modification	☒					
VRM	VRM Class III - Partially retain existing char.	☒					
Sp. Mgnt. Areas	Wildlife Migration Corridor	☒	☐	☐	☐		
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Water Resources	Ephemeral stream	☐	☐	☒	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat40: Closing this route would minimize potential impacts to wildlife by eliminating motorized use that can contribute to wildlife harassment and removing the route footprint, which can fragment habitat.
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat25: Closing this route would reduce overall impact of illegal dumping on soils and vegetation.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• *43 CFR § 8342.1 (c)*
• *43 CFR § 8342.1 (d)*

Closure Method: Natural rehabilitation

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN W/ MANAGEMENT

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat9: Continued use of this route with the added application of specific management prescriptions, would minimize potential impacts to documented resources.
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat59: Providing a critical route connection would minimize the inclination for visitors to travel off-trail, which would reduce the potential for travel-related impacts on T&E species and their habitats.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Potential Management Actions:
Mitigation: Initiate ROW/easement access negotiation
Potential management actions may be incorporated with an overall monitoring strategy that would assess the status and/or integrity of the potentially impacted sensitive resource or resource issues identified as they relate to various external factors, e.g., climate cycles, exotic species introduction, visitor use levels (type, intensity, and season of use), etc. Monitoring data that indicate a decline in resource integrity or reveal methods of mitigation that proved to be unsuccessful would then trigger adaptive and appropriate responses aimed at restoring integrity or successfully mitigating undesirable conditions.

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat12: This route provides access to private property and its use may or may not minimize potential impacts to documented resources.
Rat59: Providing a critical route connection would minimize the inclination for visitors to travel off-trail, which would reduce the potential for travel-related impacts on T&E species and their habitats.
Rat3: This route serves the purpose and need identified during the IDT route evaluation session. Relocation to eliminate route-related impacts would likely create greater impacts to documented resources than application of appropriate mitigation or management of the existing alignment.
Rat34: Due to the traffic volume and speeds expected on this route, allowing its continued use would contribute to minimizing the overall route network's potential for contributing to soil erosion, habitat disruption and/or vegetative damage.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
None					

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	By Foot	☐	☒	☐

Activities				
Public Use Activities	Hunting	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐		

Note: *Specific sensitive resources, such as cultural or paleontological resources or Threaten or Endangered Species that may potentially be affected by this route are not listed in this report for their protection. These resources will be analyzed in the NEPA process included in the planning process of route designation.*

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
CLOSED
This route will be decommissioned and not managed as a BLM transportation asset. Unless otherwise signed, cross-country foot and animal use is allowed in the area.

OHV Public: Designation per 43 CFR § 8342.1: Closed

Specific Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat36: Closing this route would reduce overall impact of vehicle use and route footprint in the area.
Rat45: Closing the route would reduce the potential for travel-related impacts to endangered or threatened species and their habitats by eliminating motorized use and removing the route footprint.
Rat83: By closing this route, traffic volume in the area would be reduced, minimizing the potential for impacts to sensitive animal species.
Rat84: Because this route is reclaimed or currently reclaiming naturally, closing the route will contribute to minimizing potential impacts to documented resources by officially eliminating motorized use.
Rat24: Closing this route, along with natural reclamation, would reduce visual contrast created by the route.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Closure Method: Natural rehabilitation

Potential Alternative Route Designations

Alternative A (Current Management, No Action Alternative)

Area Designation:
Limited to Designated Routes

Route Designation:
Open

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative B

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Copyright © 2021 by ARS, Inc. All rights reserved. No part of this publication may be reproduced, distributed, or transmitted in any form or by any means, including photocopying, recording, or other electronic or mechanical methods, without the prior written permission of the publisher, except in the case of brief quotations embodied in critical reviews and certain other noncommercial uses permitted by copyright law.

Alternative C

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Alternative D

Comprehensive Designation:
OPEN

Specific designations by user type:

Administrative/Official Users: All Federal, State and Local agencies may use this route by all motorized modes, year-round.

Authorized/Permitted Users: Currently authorized users may use this route by all motorized modes, year-round.
Additional users may be authorized by the BLM through future authorizations.

Non-motorized Public: The public may use this route by all non-motorized modes, year-round.

OHV Public: **Designation per 43 CFR § 8342.1: Open** - The public may use this route by all motorized modes, year-round.

Designation Criteria Addressed and Relevant to Route Issues:
• 43 CFR § 8342.1 (a) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, air, or other resources of the public lands, and to prevent impairment of wilderness suitability.
• 43 CFR § 8342.1 (b) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats. Special attention will be given to protect endangered or threatened species and their habitats.

How Designation Addresses Criteria Above:
Rat29: Allowing continued use of this route would minimize the potential for impacts to documented resources by providing specific recreation activity and experience opportunities that reduce or eliminate the inclination for users to travel off-route.
Rat44: Due to the traffic volume and speeds expected on this route, allowing continued use of this route would contribute to the overall route network minimizing the potential for harassment of wildlife.
Rat70: Route provides access to important recreational woodcutting and camping opportunities without causing greater than minimal adverse effects on documented resources.
Rat2: The traffic volume and speeds that characterize the overall use of this route would reduce the potential for continued use of the route to impact documented resources.

Designation Criteria Addressed but Not Relevant to Route Issues:
(no known conflicts among users or no known resource concerns to minimize for)
• 43 CFR § 8342.1 (c)
• 43 CFR § 8342.1 (d)

Facilitator(s): Tom Folks **Initial Evaluation Date:** 8/31/2020

Evaluators:
Brian Storm, Archaeologist
Carson Gubler, Rangeland Management Specialist
Lou Pratt, GIS/Transportation Director
Dan Gunn, Outdoor Recreation Planner
Shea Owens, Legal Council
Jason Stewart, GIS Specialist
Ade Nelson, Resource Planner
Lisa Church, Wildlife Biologist
John Reese, Rangeland Management Specialist

TMA: Trail Canyon
Length: 0.34 miles **Width:** Dual Track **Class:** Primitive Roads **Use Level:** Low
Route Type(s) ☒ Spur
Surface & Maint. ☒ Bladed
Origin
Jurisdictions: ☒ BLM

Additional Information None.

Citizen Comments and Proposals

None.		

General Evaluation Questions

Does this route: ☒ either wholly or in part, have a right-of-way grant or is it simply an officially-recognized route with a record of management by another government agency? ☒ provide commercial, private property, or administrative access, e.g., via permit, ingress/egress rights or management responsibility? ☐ provide a principal means of connectivity within a Travel Management Area or sub-region? ☒ exist as part of an officially recognized part of an Agency planning document and is subject to maintenance? ☐ provide an important linkage between Travel Management Areas or planning sub-regions?	**YES**
Does this route contribute to recreational opportunities, route network connectivity, public safety, or other public multi-use access opportunities enumerated in agency Organic laws?	**YES**
Might the continued use of this route potentially impact: ☒ State or Federal special status species or their habitat? ☒ cultural or any other specially-protected resources or objects identified by Agency planning documents, plan amendments? ☒ any special area designations, e.g., National Monuments? ☒ any other resources of concern?	**YES**
Can the anticipated potential impacts to the identified resources be avoided, minimized, i.e., reduced to acceptable levels, or be mitigated?	**YES**
Can the commercial, private property, recreation or public uses of this route be adequately met by another route or routes that may minimize impacts to the resources identified as part of this evaluation or that may minimize cumulative effects on various other resources?	**NO**

Evaluation Information

Commercial, Administrative, Property and Economics

Route Management Objective(s) identify the purpose and need of the route:
This route provides important access to the following facilities and/or jurisdictions shown below for the purpose of carrying out administrative and/or authorized operations or for property access where applicable.

Facilities & Access	Specifically	Primary	Alternate	Link	Memo
Range Facilities	Active Allotment	☒	☐	☐	
Range Facilities	Allotment Fence	☒	☐	☐	

('Primary access' is the main route into a jurisdiction or facility. 'Alternate access', while leading directly to a jurisdiction or facility, it is not the main access and therefore may not be as important as a primary. 'Link access' does not lead directly to a jurisdiction or facility, but would be required to access a primary access.)

Recreational Uses

Route Management Objective(s) identify the purpose and need of the route:
This route provides public access to the following facilities using the listed travel modes for the purposes of engaging in the listed recreation activities.

Facilities	Description	Primary	Alternate	Link	Memo
Recreation Facilities	Campsite - Undeveloped	☒	☐	☐	

Travel Modes	Description	Primary	Secondary	Infreq
Modes of Transportation	Stock 4 Wheel Drive	☒	☐	☐
Modes of Transportation	UTV	☒	☐	☐
Modes of Transportation	ATV	☒	☐	☐
Modes of Transportation	Motorcycle	☐	☒	☐
Modes of Transportation	By Horse	☐	☒	☐
Modes of Transportation	By Foot	☐	☒	☐
Activities				
Public Use Activities	Hunting	☒	☐	☐
Public Use Activities	Photography	☒	☐	☐
Public Use Activities	Sightseeing	☒	☐	☐
Public Use Activities	Vehicle Exploring	☒	☐	☐
Public Use Activities	Wildlife Watching	☒	☐	☐
Public Use Activities	Woodcutting	☐	☒	☐
Public Use Activities	Camping	☒	☐	☐
Public Use Activities	Equestrian	☐	☒	☐
Public Use Activities	Hiking	☒	☐	☐

('Primary access' are the main uses on the route by the public. 'Secondary uses', while common, are not the main use on the route. Infrequent uses are uses that are rare on this route, but have been observed.)

Special Resource Concerns

Resources Evaluated:
This route is in, leads to, crosses or is proximate to the natural and/or cultural resources and resource concerns listed below.

Resource/Concern	Specifically	In	LeadsTo	Crosses	Prox	Dist	Memo
Biome	Pinyon-Juniper Woodland	☒	☐	☐	☐		
Biome	Oak & Mountain Shrub	☒	☐	☐	☐		
Managed Species	Elk habitat	☒	☐	☐	☐		
Managed Species	Turkey/Quail habitat	☒	☐	☐	☐		
Managed Species	Mule deer fawning habitat	☒	☐	☐	☐		
Managed Species	Black bear year-long substantial habitat	☒	☐	☐	☐		
VRM	VRM Class II - Retain existing character	☒					
Sp. Mgnt. Areas	ERMA - Extensive Recreation Management Area	☒	☐	☐	☐		
Misc. Resources	PFYC Class 5 - Very high	☒	☐	☐	☐
